

# MOVING OVERSIZED LOAD PERMIT INFORMATION

## OVERSIZED LOAD PERMITS

### (Oversize / Overweight Vehicles and Loads)

City of Lima

50 Town Square Lima, Ohio 45801

#### Contacts:

Kirk Niemeyer, PE  
City Engineer

Eric Bontrager, PE  
Assistant City Engineer

419-998-5508

419-998-5512

#### Purpose:

To safeguard the City's system of roadways and roadway structures and contribute to the safe movement of highway traffic for vehicles/loads that exceed the statutory maximum legal weights and dimensions.

#### When do I need a Oversized Load Permit?

Sections 5577.04 and 5577.05 of the Ohio Revised Code specifies the maximum size and weight allowable that does NOT require an Ohio Special Hauling Permit. If you exceed any of those values AND you desire to travel on an Ohio State highway or a US highway or an Interstate highway in Ohio, you will need a Special Hauling Permit for the Ohio Department of Transportation. If you desire to travel on county routes, township route, contact those corresponding agencies. The City of Lima issues for city routes only ([see attached map](#)).

#### Special Hauling Permit Application:

Oversized Load Permits give the City the opportunity to review overweight and oversized loads moving through Lima. This ensures safe equipment and proper routing along the most appropriate roads in an effort to minimize potential damage to the roadway system.

For your convenience, a [permit application form](#) is included. Print it out, complete the form, and mail, fax or email it back to:

City of Lima  
Building and Zoning Department  
50 Town Square, Lima OH 45801  
Fax 419-221-5189

Charge for permits is \$50 which covers staff time to process application and drive route after move is complete.

All applications are reviewed and permits are issued provided the proposed work meets all City standards. **Under “Explanation of Work”, list the proposed haul route, date of move, description of load, and final destination.**

Allow 3 days for processing of permit application.

Include a phone number for the company requesting the permit. Include certificate of insurance with permit application **or** cash bond (Engineering Dept will determine bond amount based on description of load and proposed route with \$1,000 being the minimum).
